## WORK EXPERIENCE

### Corporate Dental Systems (US Army / DoD) – Software Developer

JULY 2021 – Present

- Work to maintain and expand multiple different web-based software projects used by military dental clinics around the world. Focus is primarily on Angular front-end applications and .NET WebAPIs calling SQL Stored Procedures for the back end.
- Quickly became one of the company's "Subject-matter experts" for our primary dental software program.
- Help to train new employees and assist with code reviews.
- Lead the design and development for an administrative dashboard created with Blazor and Entity Framework Core.
- Fixed dozens of bugs within our legacy ASP applications.
- Updated legacy applications to work with Edge before the Internet Explorer sunset.
- Heavy focus and yearly training on technical security and medical privacy policies (including HIPAA and DoD-specific policies).

### Prosper IT Consulting – Software Developer Internship

APRIL 2021 – JUNE 2021

- Worked with the team to build a new website for a theater in Portland with ASP.NET MVC and Entity Framework.
- Used bootstrap for styling the views.
- Project was managed with an Agile / Scrum structure using Azure DevOps and Git.

## TECHNICAL SKILLS

### Front-End:

- HTML & CSS
- JavaScript & TypeScript
- Bootstrap
- Angular & AngularJS
- Blazor

### C#:

- ASP.NET
- MVC
- .NET Core
- Unity Engine (Mono)

### IDEs:

- Visual Studio
- Visual Studio Code
- JetBrains Rider
- JetBrains WebStorm
- Microsoft SSMS

### Data:

- SQL
- MS SQL Server
- Entity Framework
- SQLite

### Project Management:

- Agile / Scrum
- Git / GitHub
- Team Foundation Server
- Azure DevOps
- Plastic SCM

## EDUCATION

### The Tech Academy – Software Developer Bootcamp

DECEMBER 2020 – MAY 2021

- Graduated from the Software Developer Bootcamp with The Tech Academy.
- Studied front end development using HTML, CSS, JavaScript, Bootstrap and back end with SQL, Python, and C#.
